

# The **LOVE** and **MONEY** Lab

with Dr. Peter Robbins and Dr. Kevin Downing

*Entertaining, Enlightening and Practical  
in the context of faith that is alive and real.*

**Lab** is defined as: A classroom where **practical learning** and **demonstration** take place in science, language, and other subjects. The “other subjects” in this case are: **Love** (relationships) and **Money**.

This will not be your typical lecture format, but will take the following shape:

- We will set up the topic for the evening with a 10–15 minute intro
- We will then begin the LAB via discussion and interaction— between us and amongst the audience
- We will go into the audience to interact with them, and
- We may ask members of the audience to come up front and share their experience, insight, and life with the group. (Don’t worry, we’ll make it safe to share!)
- Finally, we want to have FUN. Fun that is safe and insightful.

Peter and Kevin have been followers of Jesus for over 30 years now, and will bring their FAITH to the table as they grapple with life’s issues. The FAITH that they bring will be ALIVE and REAL. No pie in the sky solution. No Christian platitudes. They’ll bring REAL and honest answers.

Appropriate for ages 21 (approx.) to 55+, as the topics will benefit all.

## **10 Week Subject LineUp**

Sept 24	3 Kinds of Relationships: Which one are you in?
Oct 1	Are you rich?
Oct 8	Who’s your REAL family?
